1 Application Overview

Punjab Urban Planning and Development Authority is an Apex Institution established in July 1995 for the development of balanced urban growth in the state of Punjab. PUDA is committed to provide planned residential, commercial and industrial spaces incorporating the latest state of the art technology and town planning norms.

1.1 Purpose

The purpose of this user manual is to educate the users about the PUDA portal. This user manual is a guide to the users of PUDA and describes details of the various features available on the portal. It is assumed that the user of the present system has Hands-On experience of basic PC Usage and also has conceptual understanding about the working of this system.

This document helps the user to understand the structure of the PUDA portal. The document covers all the functions of the portal and explains each of them in detail.

This document helps user with:

- Getting Started with the application
- Different processes available in the module

2 Getting Started

This section provides a general walkthrough of the application. The logical arrangement of the information shall enable the functional personnel to understand the sequence and flow of the system.

2.1 Accessing the Application for the First Time

Link to the portal is: <http://eservices.gmadaipms.in:801/>

2.2 Login Screen

When user enters the URL provided, following interface appears:

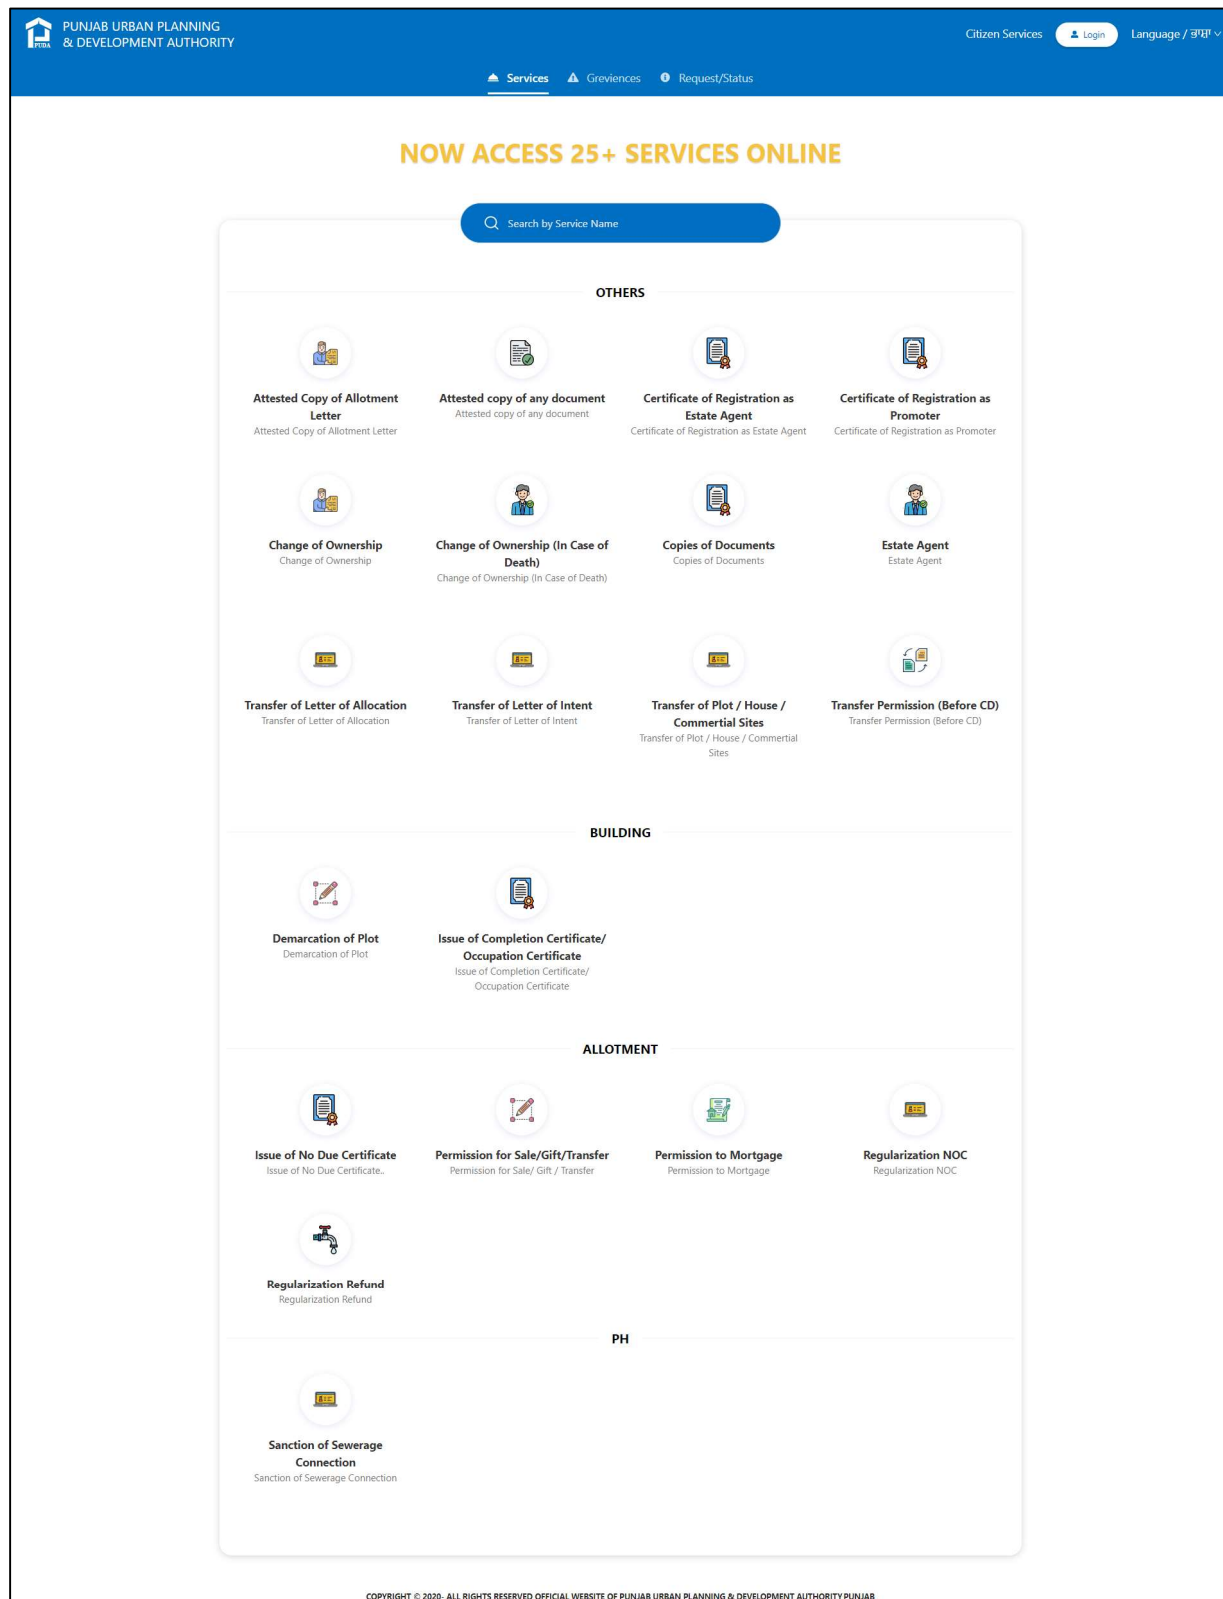

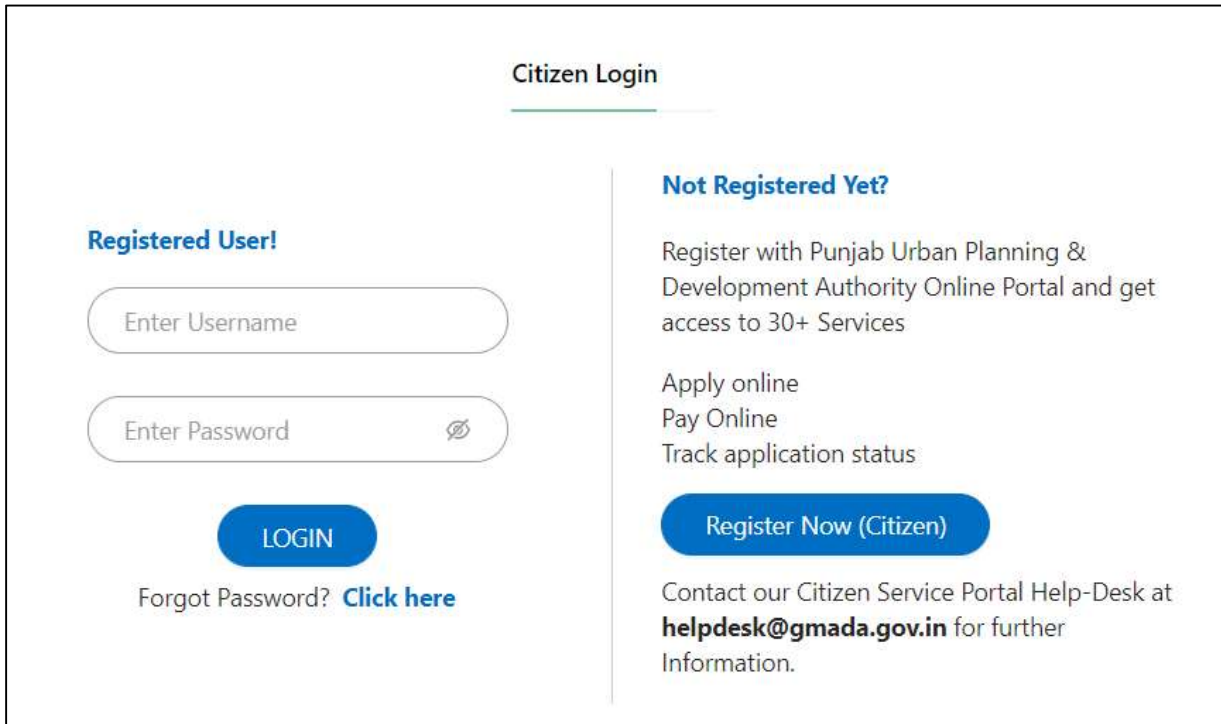

Fig. 2.1: PUDA Application

To login, citizen needs to click on the “Login” () button available at the top right corner of the page.

The following interface will be displayed:

The image shows a web interface titled "Citizen Login". It is divided into two main sections. The left section is for "Registered User!" and contains two input fields: "Enter Username" and "Enter Password" (with a toggle icon). Below these is a blue "LOGIN" button and a link "Forgot Password? Click here". The right section is titled "Not Registered Yet?" and contains text encouraging registration with the Punjab Urban Planning & Development Authority Online Portal, listing services like "Apply online", "Pay Online", and "Track application status". It features a blue "Register Now (Citizen)" button and contact information for the Citizen Service Portal Help-Desk at helpdesk@gmada.gov.in.

Fig. 2.2: Citizen Login

If the user has not registered, then click on the “Register Now Citizen” () button.

As the user clicks on the button, the following interface is displayed:

Citizen Signup

 SEND OTP

Already registered? [Login Now](#)

Fig. 2.3: Citizen Signup

Provide the necessary details asked in the form and then click on the “Send OTP” () to receive an OTP on the provided mobile number.

The following interface is displayed:

A screenshot of an OTP verification interface. At the top, it says "Enter OTP received on 76*****15" with a close button (X) on the right. Below this is a numeric input field with a vertical line separator. At the bottom, there is a blue button with a checkmark and the text "VERIFY", and a link that says "Resend OTP 56".

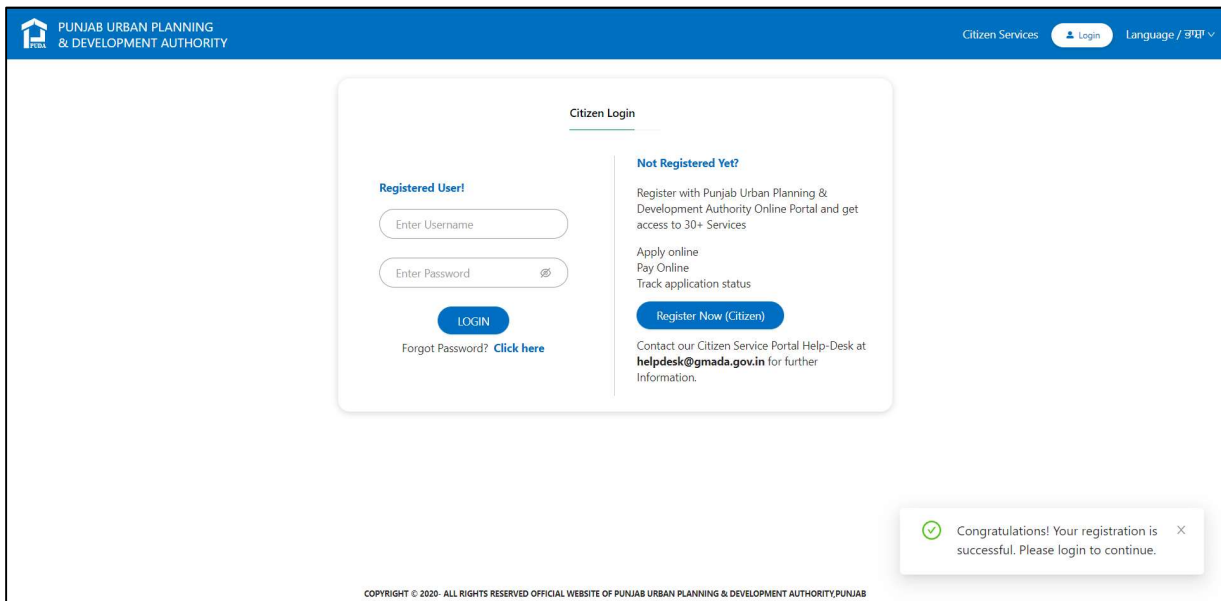

Enter OTP received on 76*****15

✓ VERIFY Resend OTP 56

Fig. 2.4: OTP Verification

The user needs to provide the OTP sent to the mobile number and then click on “Verify” () button as shown in the above figure.

A confirmation message will prompt where the user is asked to login. Provide the credentials and login to the system.

A screenshot of the "Citizen Login" page on the Punjab Urban Planning & Development Authority website. The page has a blue header with the organization's name and a navigation bar with "Citizen Services", "Login", and "Language / ગુજરાત". The main content area is titled "Citizen Login" and is divided into two sections: "Registered User!" and "Not Registered Yet?". The "Registered User!" section has fields for "Enter Username" and "Enter Password" with a "LOGIN" button and a link for "Forgot Password?". The "Not Registered Yet?" section has a "Register Now (Citizen)" button and text about registering with the portal. A green checkmark icon and a message box at the bottom right say "Congratulations! Your registration is successful. Please login to continue." The footer contains copyright information for 2020.

Fig. 2.5: Login Successful

2.3 Dashboard

When the user login for the first time, the following dashboard is displayed:

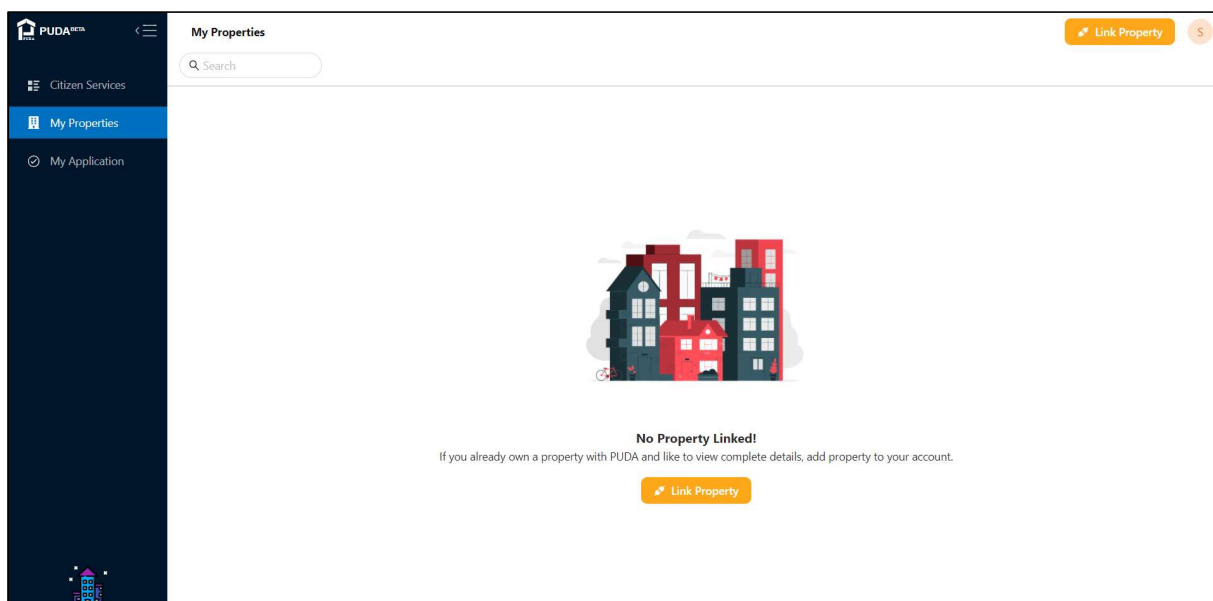

Fig. 2.6: Dashboard

Once the properties are linked, the dashboard is displayed as follows:

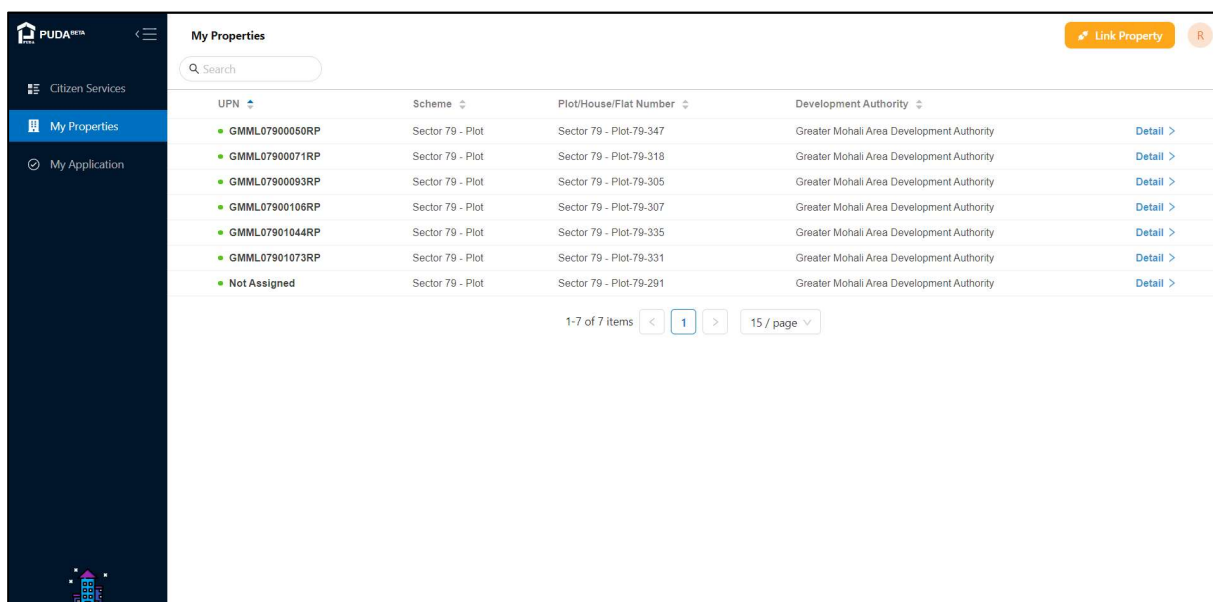

Fig. 2.7: My Properties

The dashboard provides complete overview of the portal. It provides details such as UPN, scheme, plot/house/flat number and development authority. User can get details by clicking on the “Detail” button available at the right side of the application.

The left panel provides three major functions of the portal. They are:

- Citizen Services
- My Properties
- My Application

These functions are discussed in detail in the upcoming sections.

2.4 Change password

To change the password, click on the icon present next to the “Link Property” ( Link Property) button on the top right corner of the page.

When user clicks on this option, following popup appears:

Fig. 2.8: Change Password Option

Click on the “Change Password” ( Change Password) button and the following interface will be displayed to the user:

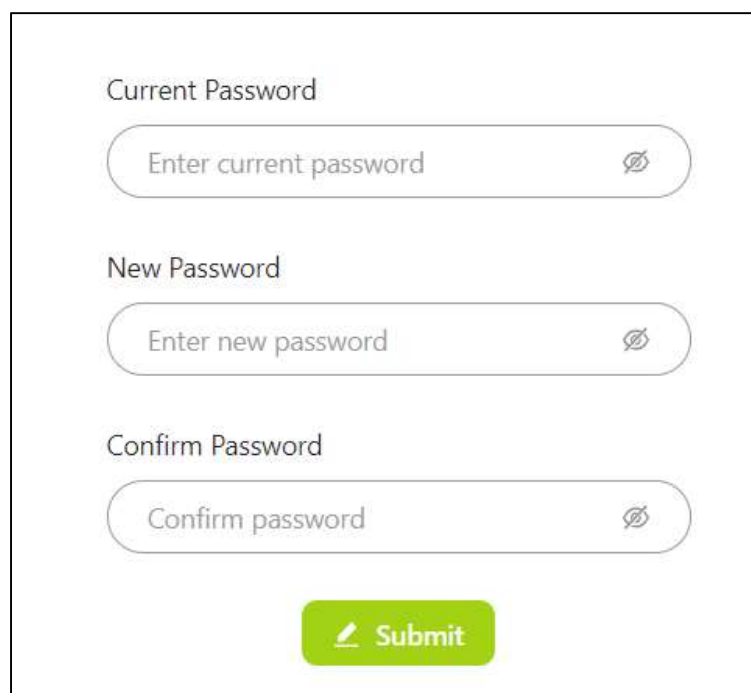

A screenshot of a 'Change Password' form. It contains three input fields, each with a placeholder text and a toggle icon on the right. The first field is labeled 'Current Password' and has the placeholder 'Enter current password'. The second field is labeled 'New Password' and has the placeholder 'Enter new password'. The third field is labeled 'Confirm Password' and has the placeholder 'Confirm password'. Below these fields is a green 'Submit' button with a white arrow icon.

Fig. 2.9: Change Password

User has to enter the current password that he/she has been using for logging- in the application, followed by the new password. User has to re-enter the new password in “Confirm Password” text box to avoid any errors.

After entering all the necessary data, click on the “Submit” ( Submit) button to save changes.

The user can logout the application by clicking on the “Logout” () button present next to the “Change Password” button.

3 Citizen Services

Citizen services will list all the services that are available in association of a property.

The navigation for **Citizen Services** is as follows:

Login >> Citizen Services

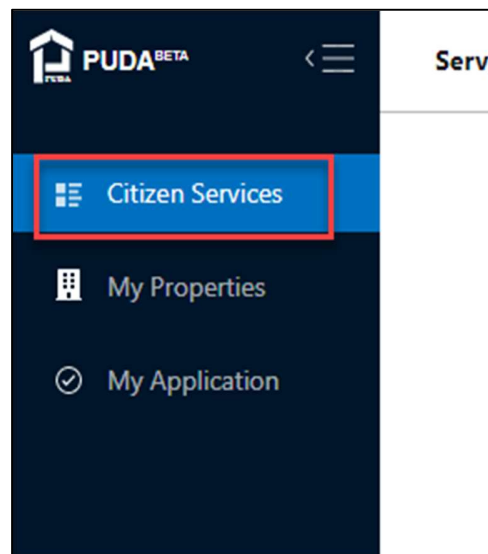

Fig. 3.1: Navigation

The citizens can submit the application from the list of available options for the services as shown in the image below:

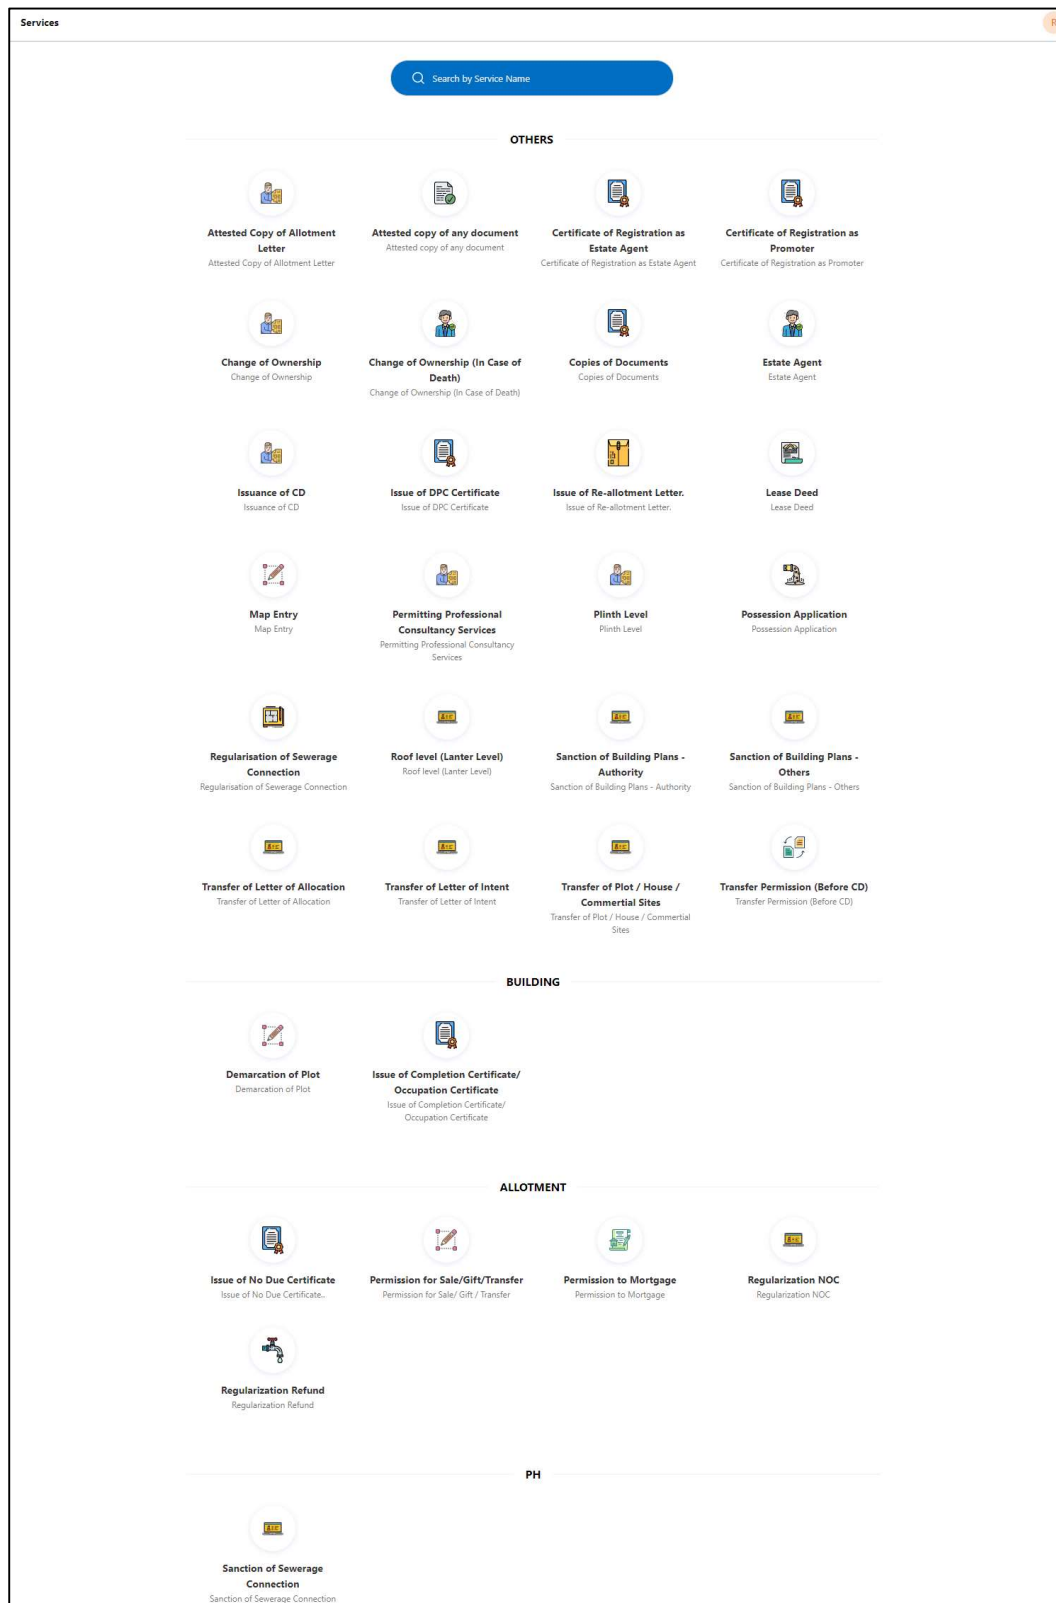

Fig. 3.2: Citizen Services

Further processing of the services is same as explained under the New Application section of this manual.

4 My Properties

My Properties shows the property details of the user.

The navigation for **My Properties** is as follows:

Login >> My Properties

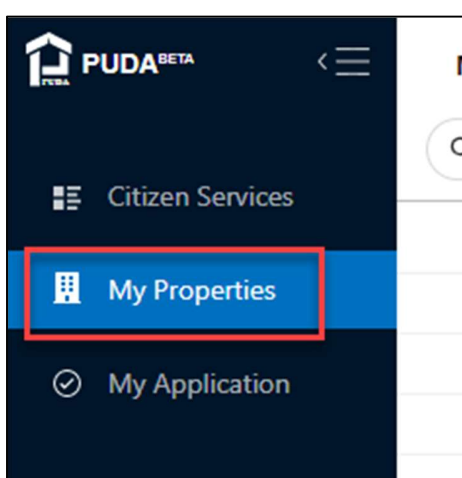

Fig. 4.1: Navigation

Already existing details are available on the page having details like UPN number, Scheme, Plot/House/Flat Number, and Development Authority. Detailed information regarding the property can be viewed using the **Detail** (Detail >) button, available in front of the application.

Following is the interface of My Properties:
